What You've Been Waiting For Is Finally Here, A Product With The Ingredients All The Best Nutritionally Educated Doctors Are Recommending Now!

L-Arginine: Numerous studies and medical reports worldwide have proclaimed its benefits in helping with heart and blood vessel conditions including congestive heart failure (CHF), chest pain, high blood pressure, and coronary artery disease.*

MSM: Doctors and nutritionists in every modern country rave about its anti-inflammatory properties. Untold numbers of studies prove chronic inflammation is one of Americas top killers because inflammation dramatically contributes to both cardiovascular disease and heart failure.*

L-Citrulline: Amazing new studies have nutritionally educated healthcare practitioners prescribing it to their patients year round as well as before and after surgery to regulate blood pressure in ways that other compounds simply cannot.*

Ornithine: Has been proven over decades of use to be one of the best supplements at helping regenerate and heal the liver. This is great news because as you know the liver cleans and filters your blood. Your blood is what your heart pumps and what feeds the heart with its critically essential nutrients that it must have to function. This obviously makes Ornithine extremely important in maintaining a healthy heart.*

Ashwaganda: Used for centuries to relieve stress and reduce inflammation. Experienced Doctors are extremely impressed with it's fantastic ability to help lower cholesterol.*

Grape Seed Extract: Quite possibly the premier natural ingredient known that can dramatically help lower cholesterol, aid in lowering hypertension and have profound overall correctional effects on many of the main root elements that are thought to cause heart disease.*

Top Medical Authorities All Agree The Ingredients In Your JubiMax Cardio Are Amongst The Best In The World...

"We have known for 20 years that the amino acid L-arginine offers multiple vascular benefits to people with heart disease, or those who have increased risk for heart disease due to multiple cardiac risk factors. L-arginine is a key nutrient in promoting efficient blood flow and overall cardiovascular function."* Dr Mercola

"While attending the American College of Cardiology annual meeting several years ago, I was pleased to hear how much attention L-arginine was receiving from other cardiologists. I have been using this healthy heart nutrient to support healthy cholesterol levels and to support healthy arteries in angioplasty patients for years."* Dr. Stephen Sinatra

"Results from biochemical and pharmacologic studies suggest that L-citrulline is taken up by cerebral perivascular nerves and is converted to L-arginine for synthesizing nitric oxide** SIC this can be a great thing for heart health. * Dr. Jun-Ge Yu

Ashwaganda is a top herb in Ayurvedic Medicine. "Ayurveda is a Sanskrit word, which means the scripture for longevity".* Dr. Ramassamy

Dr Oz on The Dr Oz Show said: " Grape Seed Extract is a great health product with many uses. It can help you have a flatter stomach, lower your chance of Stroke or Heart Attack, and

bring down Blood Pressure, which is a major factor in premature aging. Is there anything it can't do?"*

"One way that GSE (Grape Seed Extract) assists your cardiovascular system is by helping your arteries relax so that blood can flow easier". * Byron J. Richards BCCN
