

This was the Garden and the greens web page. It sold pretty decent. Green foods are slower sellers anyway, it's just the category. But for a green foods it sold pretty well.

NutriHarmony's The Garden and the Greens™

Your Nutritional Powerhouse!

The Garden and the Greens™ represents a powerhouse of high-energy nutrients that can significantly improve your health. Just one serving of The Garden and the Greens™ has four times as many polyphenols as the finest green tea.

It is a proprietary blend of Organic Spirulina, Organic Wheatgrass Juice Powder, Broken Cell Wall Chlorella and Real Food™ Wild Spanish Orange. It also contains Broccoli Sprout Extract, the greatest source of Sulforaphane, which is an extraordinary nutrient that has been scientifically proven to aid anti-tumor defense. Research shows that Sulforaphane:

- Helps to reduce age related declines in the central nervous system
- Helps enhance immunity
- May help protect against macular degeneration
- Helps strengthen the heart
- Aids detoxification
- Improves energy and vitality
- Aids digestion and elimination
- Helps to reduce constipation
- Serves as an excellent blood cleanser
- Supports the liver in detoxification of the blood

Green foods are considered by many to be "super foods", as they can improve dozens of health challenges. They're some of the most rejuvenating foods you can ever feed your body. When it comes to green supplements, NutriHarmony's The Garden and the Greens™ is the best — the absolute purest of the pure. Join the green revolution. Add The Garden and the Greens™ to your daily diet today!
