"Working with Jacob's swing speed training programs I increased my speed by 12 miles per hour in one month. The game is a lot more fun with the driving distances I'm hitting them. Now I'm reaching greens in two more often. Swing speed training really works."

"When I first started the swing speed training I was very skeptical it would do anything for me because I was already swinging at speeds close to 130 mph. But I wanted to get to the next level and be able to compete in Long Drive Events. So I gave it a try. I gained 13 mph in just one month of the basic swing speed training.

Swing speed is the one thing you can improve upon the fastest regardless of age and it doesn't even matter whether you're athletic or not.

With Swing Speed On Your Side You'll Have Tee Shots Hitting Distances That Will Have Everyone Standing Up And Taking Notice!

When You hear all the world's top golfers talk about something all the time you know it has to be something important.

Well, some call it club speed and some call it swing speed, but as everyone knows it's a super hot topic amongst the Pro's!

Your chart below shows you exactly why all of the best guys are always wanting more swing speed. This graphic shows how fast people swing and what the average carry distance (how far the ball flies before it first touches the ground) is:

Put 1st chart here:

Now let's take a look at some super interesting and specific numbers.

Put 2nd chart here:

So, as you can see the more swing speed you get, the longer your drives will be.

And: Despite what many teaching Pro's, and even Tiger believe, yes, you can actually discover the technique that will increase your swing speed easily at any age!

But... those guys are all super-fit. Do I have to be as fit as Tiger or Camilo Villegas to increase my swing speed?

Put images of fit and fat Golfers here

No, absolutely not. Just look at Camilo Villegas and John Daly. Camilo is one of the fittest players on tour. John is, well, not, but he still outdrives Camilo by a solid 4 mph.

None of those things really matter. Once you gain access to the top technique long ball champions use you're going to have amazing success just like these ordinary folks...

"Dear Mr. Bowden, I have purchased your program and after only two weeks. I am 65 years old and before starting your program my average speed was between 85 and 88. I am now averaging 88 to 91But..I have recorded one swing at 99 mph and the ball was out or sight.....WOW. I have recorded 4 drives on the course of 260 to 280....yes I said 280. It was a feat but my buddies are already talking about making me tee off the blue tees."

- Bob L, 65 years old

"The video on ... is the most effective instruction I've ever had!! I'm 72 y/o and have never known my swing until now. I used to shoot low, now and then, but quit for 15 yrs. Last year I started again and could not break 95 until this very informative video. Now, I'm scoring in the low 80's or better from the intermediate tees.(I also have had back surgery for spinal stenosis) Thanks for a great lesson."

- Wilbur H, 72 years old

"I have been into your teaching for a about 5 weeks have gained 30 yards... I am in my 60s."

- Stanley T, 62 years old

Yes, I chose these specific testimonies because these guys are all well over 60, but we literally have hundreds of real testimonials, from 12 years olds to guys in their late 80s, with handicaps from 30+ all the way to Pro.

On average, all my students constantly add 12-16 mph of driver swing speed and 30-40 yards to their drives in their first month in just 10 minutes twice per week. Yes, those are fast results, but those are just the averages.

Quite a few people, like one gentleman who is over 58 years old actually **gained over 30 mph, which translates to an astounding 75 yards in greater distance!**

I could go on and on and tell you about more of the thousands of long driving customers from around the globe that have already achieved these gains in distance with little to no work on their part at all.

But first let's answer the #1 question everyone always wants to know....

Do I have to change my Golf Swing?

The Answer is...

Absolutely not. The Swingman Golf Training System consist merely of a few very subtle changes in technique, where you simply make small adjustments to your warm up and training. All stuff that you can easily do in 10 minutes only twice a week.

With Almost No Time Or Effort On Your Part Just Look At The Benefits You'll Receive:

You'll discover how to greatly improve your balance so you can stop taking those embarrassing mile-long divots that you never indented

You'll amaze at the coordination training that will have your timing ticking like clockwork

Never again will you have to fear slices and hooks when you finally uncover the insights of "Club Awareness"

You'll have far more straightforward short iron approach shots & reach many more greens in regulation!

WHAT THE SWING MAN GOLF SYSTEM IS:

It's a simple and clear system of instructions, that took me more than 10 years of dedication, trial and error and sweating, so you don't have too. With the one goal of perfecting the technique of rapidly gaining super swing speed that could then easily be taught to any golfer at any level regardless of their age or experience.

WHAT THE SWING MAN GOLF SYSTEM IS NOT:

This is NOT a DVD that comes by mail in a few weeks, when you have forgotten that you even ordered it, and that's outdated within a few months.

It's a living and breathing online membership system, that constantly gets updated, and is always immediately accessible wherever you are even when you're traveling for business, vacation or retirement. No matter where you are it's always right there when you need it.

This is not some crazy way to try and sell you a bunch of golf gadgets you really don't need and that only end up in a garage sale somewhere. Everything you need to perfect this system you already have.

This is not one of those ultra boring workout routines that has you driving to the gym and spending hours on useless movements that never really translate to golf anyway. This is **the one thing** you can do in only 10 minutes just twice a week.
