### **Body Lotion- Coconut**

8 oz

Get That Silky, Smooth Look and Feel. One of the main reasons our skin looks older and tired is it loses moisture. The older we get, the more difficult it becomes to properly hydrate the skin. One way or the other, if we want our skin to look and feel young, we've got to fully hydrate it. We have two choices: to take the harsh chemical route or the natural way: One's toxic, the other is not. Truth be known, there are very few purely natural body lotions on the market today — and none are like NutriHarmony's Coconut Body Lotion. It's 100% natural, incredibly pure, with a luscious fragrance. Unlike so many other lotions, our product does not contain Methyl, Propyl, Butyl, or Ethyl Parabens. Our coconut body lotion works quickly to properly hydrate your skin and conserve precious moisture. Now you can soften rough spots on your skin, replenish essential fatty acids and get that silky, smooth look — by replenishing lost moisture from the daily grind, naturally.

### Go Way Beyond the Surface.

To keep the face looking youthful, you've got to have a great cleanser: the purer and more natural the better. NutriHarmony's Facial Cleanser is as natural as it gets. It deep cleans the skin of dirt and excess body oils. It goes way beyond the surface of the skin to clean the pores, remove blackheads and exfoliate. The rich Macadamia nut oils create a soft, smooth and silky like feeling on the skin. Facial Cleanser is also fortified with olive oil to provide the skin with essential fatty acids
